Our Story

Topical Review Book Company was founded in 1936 in Auburn, NY by former teacher and Principal Clarence L. Williams. His vision was simple: create review materials that actually help students succeed.

For nearly a century, we have grown to be known as the “**THE LITTLE GREEN BOOK COMPANY**”, a nod to the distinctive green covers of our review books. We have grown into a trusted name in New York State Regents Review, while remaining proudly family owned, now transitioning into our fourth generation.

Topical Review Book Company is currently based in the Irish Hills of Michigan. While we primarily serve New York State, we are happy to accommodate schools and educators wherever our materials are needed.

We are the Publisher and Sole Vendor of all our books.

Sole Source Information found on our Website:

<https://www.topicalrbc.com/sole-vendor-letter/>

Interactive eBooks

Topical Review Book Company
is pleased to announce that all of our books
are now available in an
interactive eBook platform.

Upon purchase, you will be granted a 12-month license for the use of the individual eBook. Each eBook can be viewed on 3 separate platforms, such as a smartphone, tablet, or desktop computer. The eBooks are compatible with all major operating systems (Apple, Android, and IOS).

Topical Review Book Company has its own branded reader app. The best-in-class reader app has features such as off-line reading capabilities in the absence of internet connectivity, annotation tools, text highlight, search text, instant feedback on answers, and so much more.

As always, for every 25-student licenses purchased, a FREE copy of the Teacher license will be provided. The teacher license allows the teacher to monitor individual progress, interact with the student, and reset the student's answers. It provides analytical data such as; the average time spent on the student's eBook, what pages/ assignments have been completed, and the ability to download spread sheets showing students/classrooms answers, and so much more.

MIDDLE SCHOOL SCIENCE

Next Generation Science Standards

TALES OF SCIENCE

NEW

Tales of Science Mini Book Series is written to teach science through story-telling and encourage children, ages 12-14, to read science. The book is closely articulated to the Next Generation Science Learning Standards. It includes a number of activities students can do at home or school.

Each story has interactive activities such as; charts, games, YouTube videos, website links, discussion questions, science terms, and definitions. The Next Generation Science Learning Standards and disciplinary core ideas are given after each short story.

— Size (8.5 x 11) Author: Joan Wagner

You may purchase each mini book individually or as a discounted Triple Pack.

NEW

INTERMEDIATE-LEVEL SCIENCE CLUSTER QUESTIONS

This book is designed to help students prepare for the Intermediate-Level Science Test by exposing them to rigorous, exam-style questions that emphasize critical thinking, scientific reasoning, and data analysis.

The book features 15 topic-based cluster groups covering subjects such as astronomy, biodiversity, chemistry, and cellular respiration. Each cluster includes a variety of questions that mirror the format of the actual exam, including open-ended responses, graph and chart interpretation, and application-based science questions.

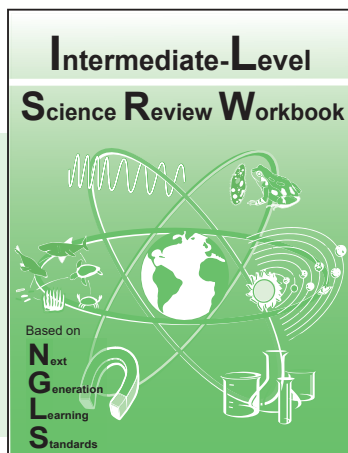

Rather than reteaching all middle school science concepts, this resource focuses on strengthening students' ability to carefully read, analyze information, apply scientific knowledge, and confidently solve challenging test questions. — Size (8.5 x 11) (80 pages)

SCIENCE INTERMEDIATE LEVEL 3D LEARNING ASSESSMENTS

A NGSS-aligned workbook designed to boost middle schoolers' critical thinking. It features targeted skill-building sections, practice units across key science disciplines, and authentic test-style assessments in an easy-to-use larger format. It is:

- **NGSS Aligned:** Supports middle-level assessments by covering key ideas, performance indicators, and intermediate skills.
- **Comprehensive Units:** Guides students through Life Science, Earth & Space Science, and Physical Science.
- **Skill Building:** Dedicated sections cover reading, writing, and laboratory essentials.
- **3D Assessment Prep:** Every unit includes questions to help track strengths and areas for improvement.
- **Authentic Format:** Designed in a standard workbook layout to build test-taking confidence.

EARTH & SPACE SCIENCES

Next Generation Science Standards

EARTH & SPACE SCIENCES LABORATORY MANUAL

Earth & Space Sciences

Laboratory Manual with Performance Assessments
Written within the Next Generation Science Standards Framework
& Aligned to the New York State Learning Standards
Written by Rosemarie Sanders

This book contains 40 hands-on laboratory investigations that explore key concepts in Earth & Space Sciences through a minds-on, inquiry-based approach. Written by teachers with budget-conscious science departments in mind, the labs are practical, engaging, and classroom-friendly.

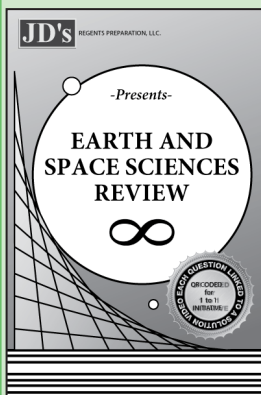

Each investigation is followed by ten progressively challenging questions designed to deepen students' understanding and strengthen critical-thinking skills. Every lab is fully aligned with the New York State 2024 Earth & Space Sciences Reference Tables, making this resource an ideal tool for classroom instruction, review, and assessment. Size (8.5 x 11) (260 pages)

JD's EARTH & SPACE SCIENCES REVIEW

- **TOPIC-DRIVEN STUDY:** Breaks down 4 past NYS exams organized by curriculum topic to target areas of weakness, focus on specific concepts, and prepare more effectively for the Regents Exam.
- **2 FULL-LENGTH EXAMS:** Features the *NGLS June and August 2025 Regents Exams* exactly as administered, giving students valuable practice with the real exam format and structure.
- **VIDEO INSTRUCTION:** Every problem has its own QR code linking to step-by-step video solution accessible via smartphone or tablet.
- **SELF-PACED:** Ideal for continuous classroom support and independent review.

Total Exams Included: 6
