Topical Review Book Company is pleased to announce that all of our books will now be available in an interactive eBook platform.

Upon purchase you will be granted a 12-month license for the use of the individual eBook. Each eBook will be able to be downloaded onto 3 separate platforms, such as a smartphone, tablet, or desktop computer. The eBooks are compatible with all major operating systems (Apple, Android, and IOS).

Topical Review Book Company has its own branded reader app. The best-in-class app has features such as a refreshing interface, book download capability, off-line reading mode, use annotation tools, text highlight, search text, and so much more. Once downloaded, Topical Review Book Company's eBook app also allows you to access and read in the absence of internet connectivity.

As Always, an additional Teacher Copy of the license will still be FREE for every 25-student licenses purchased. The teacher license will allow the teacher to monitor individual student's progress and the engagement performance in just a few clicks. It will also provide analytical data to teachers such as: how the content is being consumed, number of licensed eBooks distributed, the average time spent on the student's eBook, who has completed assigned problems and who has not.
